UKRAINIAN MATHEMATICAL JOURNAL

Volume 29, Numbers 1-6, 1977

(A translation of Ukrainskii Matematicheskii Zhurnal)

A

Agranovskii, B. A. - 128
Aliev, T. M. - 277
Andrievskii, V. V. - 111
Antonyuk, P. E. - 380
Arolska, M. At. - 385
Ashirov, S. - 437
Atdaev, S. - 437

B

Bainov, D. D. - 385, 604
Baryshovets, P. P. - 541
Belyi, V. I. - 111
Berezanskii, Yu. M. - 118
Berezovskii, A. A. - 388
Berman, S. D. - 331, 481
Bogdanskii, Yu. V. - 578
Bogolyubov, N. N. - 1
Boiko, R. V. - 68
Bratiichuk, N. S. - 581
Bugaets, V. P. - 586
Buldygin, V. V. - 337
Butsan, G. P. - 11, 124, 282, 591

C

Charin, V. S. - 210, 319
Chaus, N. N. - 323
Chernaya, M. F. - 277

D

Davydov, N. A. - 224
Divnich, N. T. - 493
Domnitskii, V. N. - 496
Dunduchenko, L. E. - 181
Dvorak, A. V. - 427
Dzyadyk, V. K. - 193

E

Eremenko, A. É. - 600

F

Fokht, A. S. - 297

G

Gaisenyuk, B. S. - 74
Gerus, O. F. - 490
Girnyk, M. A. - 24
Gnatyuk, V. A. - 30, 178
Golod, P. I. - 392
Goma, I. A. - 594
Goncharenko, S. V. - 181
Gorlenko, S. V. - 185
Grigorenko, V. K. - 188
Gudivok, P. M. - 443
Gusak, D. V. - 632

H

Ivanov, L. A. - 602
Ivasishen, S. D. - 397

K

Kakichev, V. A. - 450
Kamenskii, G. A. - 230
Karganyan, I. R. - 485
Kazimirskii, P. S. - 501
Khasanov, A. A. - 219
Khimich, I. V. - 458
Kleiner, I. Z. - 295
Kochura, A. I. - 608
Kolomytsev, V. I. - 402
Kononenko, É. D. - 230
Konstantinov, M. M. - 604
Korenkov, N. E. - 345
Korobov, V. I. - 406
Korolyuk, V. S. - 1, 17, 352
Kostenko, E. S. - 82
Kostenko, V. G. - 275
Koval'chuk, I. M. - 77
Krasnov, V. A. - 38, 297
Krivoshein, L. E. - 300
Krivosheya, S. A. - 44
Kucherenko, É. I. - 87, 196
Kulik, V. L. - 44
Kutanov, A. - 300

L

Lapkovskii, A. K. - 613
Laptinskii, V. N. - 409, 613
Lazur, V. Yu. - 458
Lomsadze, Yu. M. - 128
Lutsenko, A. V. - 406

M

Mangeron, D. I. - 300
Martynyuk, A. E. - 135
Martynyuk, V. T. - 586
Meleshko, V. I. - 545
Mel'nik, Yu. I. - 615
Migutsa, D. A. - 286
Mikhailyuk, T. A. - 118
Mikhalin, G. A. - 145, 564
Milusheva, S. D. - 199
Mironova, V. V. - 506

UKRAINIAN MATHEMATICAL JOURNAL

Volume 29, Numbers 1-6, 1977

(A translation of Ukrainskii Matematicheskii Zhurnal)

Volume 29, Number 1 January-February, 1977

	Engl.	Russ.
The Research of Yu. A. Mitropol'skii in the Realm of the Theory of Nonlinear Oscillations – N. N. Bogolyubov and V. S. Korolyuk	1	3
Integral Representation of Stochastic Semigroups – G. P. Butsan	11	15
Asymptotic Approach to the Transfer of Boundary Conditions for Linear Ordinary Differential Equations – A. P. Velikii and V. S. Korolyuk	17	23
On the Inverse Problem in Value Distribution Theory for Functions Analytic in the Unit Disk – M. A. Girnyk	24	32
Some Properties of Functionals of Slow Growth – V. A. Gnatyuk and V. V. Moiko		40
Estimation of Constants in Nonlinear Weight Embedding Theorems with Applications to Integral Bounds for Legendre Polynomials – V. A. Krasnov	30	50
Use of Asymptotic Methods in Solving the Problem of Fluid Flow in an Elastic Pipeline – S. A. Krivosheya and V. L. Kulik	38	58
Finite Elementary Factorizable Groups – Ya. P. Sysak	44	67
Approximate Solution of Two-Element Boundary-Value Problems with a Shift – N. Ya. Tikhonenko	51	77
BRIEF COMMUNICATIONS	58	
A Limit Theorem for Branching Random Processes with Variable Mode (Critical Case) – R. V. Boiko	68	89
Conditions for the Existence of Undamped Autooscillations in a System with Damping – B. S. Gaisenyuk, A. S. Ponomarev, and V. S. Urbanskaya	74	96
Linear Equations with Functional Derivatives – I. M. Koval'chuk	77	99
Asymptotic Behavior of Solutions of Fourth-Order Linear Ordinary Differential Equations – E. S. Kostenko	82	105
Convergence of the Bogolyubov–Galerkin Method – É. I. Kucherenko	87	112
Almost-Periodic Solution to Nonlinear Wave Equations – V. B. Moseenkov	91	116
One Antiplanar Problem for an Elastic Reinforced Wedge – O. V. Onishchuk	96	123
Minimal and Maximal Intermediate Banach Spaces – E. I. Pustyl'nik	102	129
The Linear Boundary Problem in a Banach Space as a Functional Analog to Cauchy's Scalar Problem	108	137

Volume 29, Number 2 March-April, 1977

	Engl.	Russ.
Metric-Geometric Relations for a Conformal Mapping of a Simply Connected Domain onto the Exterior of the Unit Disk – V. V. Andrievskii and V. I. Belyi	111	147
Self-Adjointness Conditions for Elliptic Operators with Infinitely Many Variables – Yu. M. Berezanskii and T. A. Mikhailyuk	118	157
Some Properties of the Integral Representation of a Stochastic Semigroup – G. P. Butsan	124	166
Representability of the $\hat{S}$ Operator in the Strong Normal Form – Yu. M. Lomsadze, E. P. Sabad, and B. A. Agranovskii	128	172
Application of Galerkin Methods to the Fundamental Boundary-Value Problems for Weakly Elliptic Equations – A. E. Martynyuk	135	181

	Engl.	Russ.
A Property of a Class of $(\bar{R}, p_n, \alpha)$ Methods for Summation of Series and Tauberian Theorems – G. A. Mikhalin and L. S. Teslenko	145	194
Construction of Correlation Function of Statistical Functional of a System of Interacting Particles (Orthogonal Expansion) – K. K. Pecharskii	152	204
Automorphism Groups of Dihedral Groups – F. Rotmaler	162	216
Conformal Mappings of Curvilinear Semi-Strips – T. V. Strochik	167	223
BRIEF COMMUNICATIONS		
Coefficients of Dirichlet Series Specifying an Entire Function – B. V. Vinnitskii and M. N. Sheremeta	174	232
Numerical Method for Solving one Generalized Convex Programming Problem in a Linear Normed Space – V. A. Gnatyuk and V. V. Moiko	178	237
Construction of a Conformal Mapping from an n-Connected Cyclic Region to the Entire Plane with Cuts along Sections of Rectilinear Rays – S. V. Goncharenko and L. E. Dunduchenko	181	241
Some Differential Properties of Real Functions – S. V. Gorlenko	185	246
Asymptotic Representation of the Solutions of Linear Differential Equations When the Characteristic Equation Has Multiple Roots – V. K. Grigorenko	188	249
Approximation to Functions of a Complex Variable on Arcs – V. K. Dzyadyk	193	254
The Convergence of Certain Approximate Methods for Solving the Equations of Motion of a Tetragyroscopic Vertical – É. I. Kucherenko	196	259
Application of the Averaging Method for Solving Multipoint Boundary-Value Problems with Nonlinear Boundary Condition for Systems of Differential and Integrodifferential Equations Not Solved with Respect to the Derivative – S. D. Milusheva and D. D. Vainov	199	263
Conditions for the Summability by Triangular Methods of the Cauchy Product of Two Number Series – M. F. Poluyanova	204	268
Groups with Uniquely Generated Invariant Subgroups – I. V. Protasov and V. S. Charin	210	275
Representation of the Solutions of Quasilinear Functional Differential Equations of Neutral Type in Case of Resonance – E. Yu. Romanenko	214	280

Volume 29, Number 3 May-June, 1977

	Engl.	Russ.
Some Singularly Disturbed Systems in the Critical Case – A. B. Vasil'eva and A. A. Khasanov	219	291
Tauberian Theorems for Iterations of Methods of Weighted Arithmetic Means – N. A. Davydov	224	298
Method of Collocation for a Boundary-Value Problem for a Linear Equation with Deviating Argument of Neutral Type – G. A. Kamenskii and É. D. Kononenko	230	306
Development of Oscillation Theory of the Solutions of Differential Equations with Retarded Argument – Yu. A. Mitropol'skii and V. N. Shevelo	235	313
Linear Interpolation of a Homogeneous Random Vector Field of a Continuous Argument – M. P. Moklyachuk	244	324
Estimate of the Rank of Connected Locally Compact Nilpotent Groups – Z. I. Moskalenko	251	333
Topological Imbedding of Semiordered Topological Vector Spaces – Yu. I. Petukhin and V. D. Pogrebnoi	259	344
Second-Order Hyperbolic Huygens Differential Equations for Multicomponent Fields – R. Schimming	264	351
ANNIVERSARIES		
Yaroslav Borisovich Lopatinskii (on His 70th Birthday) – Ya. S. Podstrigach, V. G. Kostenko, and E. N. Parasyuk	275	364
BRIEF COMMUNICATIONS		
An Ergodicity Condition for a Markov Chain with Continuous Component – T. M. Aliev and M. F. Chernaya	277	366
Stochastic Semigroups with Generalized Operator Values – G. P. Butsan	282	373

	Engl.	Russ.
Equations of Perturbed Motion of a Rigid Body in Nonprincipal Axes Relative to an Evolutionary Orbit – P. P. Vcherashnyuk and D. A. Migutsa	286	377
An Extension Theorem and Domain Preservation Criteria for Multivalued Maps – Yu. B. Zelinskii	291	383
Closure and Boundary Operators in Topological Spaces – I. Z. Kleiner	295	387
An Interpolation Theorem for Sums of Legendre Functions and Its Application – V. A. Krasnov and A. S. Fokht	297	389
Investigation of Nonlinear Integrodifferential Systems with Autoregulation within the Limits of Integration, Generalizing the Mathematical Model of Dynamics of Bifilar Elevation – L. E. Krivoshein, A. Kutanov, D. I. Mangeron, and M. N. Oguztoreli.	300	392
Oscillations of a System with Lag Depending on the System's State – Yu. A. Mitropol'skii and Nguen Kkhak Lan	304	398
Asymptotic Method for Investigating Multifrequency Oscillations in Quasilinear Systems of Second-Order Integrodifferential Equations – Nguen van Dao	310	404
The Question of Tauberian Theorems – A. I. Sokolenko	315	411
One Class of Topological FC-Groups – V. S. Charin	319	415
Behavior of Solutions of Difference–Differential Equations – N. N. Chaus	323	419
The Spectrum of a General Singular Operator – V. V. Shevchik	327	423

Volume 29, Number 4 July-August, 1977

	Engl.	Russ.
Irreducible Complex Representations of Finitely Generated Nilpotent Groups – S. D. Berman and V. V. Sharaya	331	435
Sub-Gaussian Processes and Convergence of Random Series in Functional Spaces – V. V. Buldygin	337	443
Asymptote of Derivatives of the Logarithmic Product of Entire Functions – N. E. Korenkov	345	455
The Potential Method in Boundary-Value Problems for Random Walks on Markov Chains – V. S. Korolyuk and V. M. Shurenkov	352	464
Connection between the Differential Operators of the R-Functions Method – V. L. Rvachev and V. F. Senchukov	358	472
Asymptotically Differentiable Functions of Many Variables – Eugen Ruzhitski	363	479
Associated Types of Entire Characteristic Functions of Several Variables – G. Shopf	371	489
BRIEF COMMUNICATIONS		
The Uniform Approximation of Functions on Closed Sets with Angular Points – P. E. Antonyuk	380	499
A Two-Point Boundary-Value Problem for a Singularly Perturbed Linear System of Differential Equations – M. At. Arolska and D. D. Bainov	385	506
Invariant Solutions of one Quasilinear Equation – A. A. Berezovskii and T. M. Netesova	388	509
Irreducibility of Elementary Representations of the Group SU (2,2) – P. I. Golod	392	513
Green's Matrix for General Elliptic Boundary-Value Problems Generated by Parabolic Problems – S. D. Ivasishen	397	519
Irreducible Representations of Inductive Limits of Groups – V. I. Kolomytsev and Yu. S. Samoilenko	402	526
Controllability of a Linear Stationary System onto a Subspace for an Unfixed Time – V. I. Korobov and A. V. Lutsenko	406	531
The Method of Variation of the Parameter and the Multiplicative Integral – V. N. Laptinskii	409	534
Quasiperiodic Solutions of a Nonlinear Wave Equation with Damping – V. B. Moseenkov	411	537
An Analog of the Two-Dimensional Local Limit Theorem – V. A. Peten'ko and Yu. P. Studnev	415	541
Conditions for Applicability of a Certain Projection-Iteration Method – M. N. Prisyazhnyuk	422	549
Splitting of a Dynamical System in the Neighborhood of a Stable Invariant Manifold – A. M. Samoilenko and A. V. Dvorak	427	555

	Engl.	Russ.
Properties of the Newton Majorant and Diagram of a Function Analytic in a Disk — G. G. Tsegelik	431	560

Volume 29, Number 5 September-October, 1977

The Great October Revolution and Soviet Mathematics	435	571
Solutions of Multidimensional Nonlinear Volterra Operator Equations — S. Atdaev and S. Ashirov	437	573
Modular and p-Adic Integral Representations of a Direct Product of Groups — P. M. Gudivok	443	580
Factorization and γ-Factorization of Functions in Wiener Rings, Defined on the Completion of a Surface Homeomorphic to a Sphere or a Torus — V. A. Kakichev	450	589
A Proof of the Jost—Lehmann—Dyson Integral Representation for a Causal Commutator, within the Limits of Localizable Theories — V. Yu. Lazur and I. V. Khimich	458	599
The Topological Isolator of a Subgroup of Finite Rank — V. M. Poletskikh	469	614
Topological Dualities of Locally Compact Abelian Groups — I. V. Protasov	476	625
BRIEF COMMUNICATIONS		
Representation of a Group of Type p^∞ over a Class of Fields — S. D. Berman and A. G. Podgornyi	481	632
Reduction of a Canonical System of Linear Differential Equations with Periodic Coefficients — K. G. Vallev and I. R. Karganyan	485	637
Finite-Dimensional Smoothness of Cauchy-Type Integrals — O. F. Gerus	490	642
Limit Behavior of Solutions of the Cauchy Problem of Heat-Conduction Equations Perturbed by Random Processes of the "White Noise" Type — N. T. Divnich	493	646
Asymptotic Solution of a System of Integrodifferential Equations with Lagging Argument — V. N. Domnitskii	496	650
Necessary Conditions for the Resolution of a Matrix Polynomial into Linear Factors — P. S. Kazimirskii	501	657
Continuous Dependence on a Parameter for Solutions to Certain Quasilinear Systems — V. V. Mironova	506	662
Combined Methods of Solution of Systems of Linear Algebraic Equations — V. G. Mishutin	510	667
Operators of Laplace—Levy Type — V. A. Naroditskii	513	671
Absolute p-Summability of Fourier Series by the Voronoi—Nörlund Method — N. S. Novikova and N. I. Volkova	518	676
M-Bases in Separable and Reflexive Banach Spaces — A. N. Plichko	521	681
Weak Solvability of Systems of Nonlinear Differential Equations in Banach Spaces — S. N. Samborskii	525	685
Behavior of Solutions of Differential Equations with a Transformed Argument — V. P. Skripnik	529	690
The Noether Theory for a Generalized Carleman Boundary Problem for Two Functions in a Multiply Connected Domain — V. I. Slizkii	532	694
A Generalization of a Theorem of K. Yosida Concerning an Abstract Potential in a Hilbert Space — A. F. Turbin	535	698

Volume 29, Number 6 November-December, 1977

Finite Non-Abelian Groups with Complemented Non-Abelian Subgroups — P. P. Baryshovets	541	733
Pseudoinverse Operators in Banach Spaces — V. I. Meleshko	545	738
The Problem of Justifying the Averaging Method for Second-Order Equations with Impulsive Action — Yu. A. Mitropol'skii, A. M. Samoilenko, and N. A. Perestyuk	554	750
Theorems of Tauberian Type for (J, p_n) Summation Methods — G. A. Mikhalin	564	763
Inhomogeneous Strongly Continuous Semigroups of Operators — Yu. V. Plyushchev	570	771
BRIEF COMMUNICATIONS		
The Cauchy Problem for Parabolic Equations with Essentially Infinite-Dimensional Elliptic Operators — Yu. V. Bogdanskii	578	781

	Engl./Russ.	
Potential and Resolvent of a Lattice Random Walk – N. S. Bratiichuk and B. Pirdzhanov . . .	581	784
Exact Constant for Approximation of Continuous Functions by Summation Operators of Jackson Type – V. P. Bugaets and V. T. Martynyuk . . .	586	791
Some Remarks on the Paper "Stochastic Semigroups" – G. P. Butsan . . .	591	796
Method of Successive Approximations in a Two-Point Boundary Problem with Parameter – I. A. Goma . . .	594	800
Valiron Deficiencies of Entire Characteristic Functions of Finite Order – A. É. Eremenko .	600	807
Behavior of Solutions of a Nonlinear Hyperbolic Equation for Variation of Domain – L. A. Ivanov . . .	602	809
A Boundary-Value Problem with Parameters for a System of Functional Differential Equations – M. M. Konstantinov and D. D. Bainov . . .	604	812
Riemann Problem with Generalized Coefficient – A. I. Kochura . . .	608	817
Representation Theory of Solutions of Generalized Rodrigues–Hamilton Equation – V. N. Laptinskii and A. K. Lapkovskii . . .	613	823
Representation of Regular Functions by Dirichlet Series in Closed Convex Polygons – Yu. I. Mel'nik . . .	615	826
Reversibility Conditions in the Theory of Summability of Double Series – K. M. Slepenchuk .	619	830
The Existence of the Invariant Toroidal Manifold of a Countable System of Differential Equations with Impulsive Action – Yu. V. Teplinskii . . .	623	835
Some Properties of a Class of N-Functions – I. I. Tsyganok . . .	628	841
CHRONICLES		
The Sixth Balkan Mathematical Congress – D. V. Gusak and A. N. Sharkovskii . . .	632	846
